ANGULAR FRONTEND DEVELOPER

SUMMARY

Front-end developer with 3+ years of commercial experience building complex enterprise applications, including CRM and data management systems. Specialized in modern Angular, reactive state management with RxJS/NgRx and Signals, legacy-to-modern migration, performance optimization, and cross-platform development with Ionic. Experienced in working on complex features, contributing to architectural decisions, and collaborating directly with clients, architects, and backend teams.

WORK EXPERIENCE

Front-End Developer (Angular)

Research Laboratory | Brest, Belarus | 08/2023 - 10/2026

- **Frontend Leadership & Architecture:** Coordinated frontend development within a team of 5 engineers, distributing tasks, aligning implementation approaches and partnering with the Lead Architect to translate business requirements into scalable frontend architecture.
- **Onboarding & Mentoring:** Onboarded 7 developers over the course of the project, helping them get familiar with the codebase and development workflows.
- **Legacy Migration & Modernization:** Contributed to the modernization of a legacy codebase, gradually refactoring and migrating components to modern Angular versions (up to v20) and adopting Angular Signals in modern application modules.
- **Complex Enterprise Development:** Significantly expanded and maintained a B2B CRM system utilized by 50+ active enterprise users, implementing measurement protocol management, production calendars, internal task trackers, automated invoice/report generation, and advanced data filtering with pagination.
- **State Management & Performance:** Leveraged RxJS and NgRx for asynchronous data handling and state management across complex application modules.
- **Cross-Platform & Integration:** Built cross-platform features and responsive interfaces using Ionic and Angular Material.
- **Quality Assurance & Ownership:** Promoted a strong self-testing culture within the frontend team to maintain application stability in the absence of a dedicated QA team.

Chief Specialist

Ministry of Antimonopoly Regulation and Trade | Belarus | 12/2016 - 08/2020

Policeman

Road Police | Belarus | 07/2014 - 08/2016

EDUCATION & COURSES

- Performance Optimization (2021) - EPAM Systems
- Front-End / JS, Angular (2021-2022) - RSSchool
- Law (Bachelor's Degree) (2009-2014) - Brest State A.S. Pushkin University
